

To Whom it may concern,

I have just heard of your plans to expand the LPFM stations. These stations will take priority over the current FM translator service which will affect my families favorite radio station K-LOVE. We feel so strongly about K-Love that we give financial support to this station. This station is one of the few that you never have to worry about bad words or horrible lyrics to songs. It supports wholesome values and we along with hundreds of thousands of other listeners all across the country would be extremely upset to see this station knocked off the air. This is pretty much the only radio station we listen to. This station uplifts our spirits and helps keep us spiritually grounded. We hope you will make sure this radio station is not displaced. Thank you Kim, Scott, Heather, Daniel, & Kristy Van Loan
